

Powdered Metal Tooling Materials

Since 1975 Lindquist Steels has been a leading distributor of Powdered Metal Tooling materials. We have worked closely with our customers and these materials to solve some of the most demanding and challenging tooling applications. Our extensive knowledge and inventory of these specialized steels can be put to work for you. Please contact Lindquist Steels to discuss your requirement today. We supply only the latest and highest quality materials available.

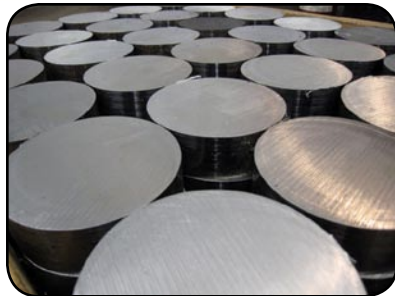

The benefits of the Powdered Metal Process for your tooling are:

- Improved Wear Resistance
- Improved Fatigue Strength
- Uniform Micro Structure
- Improved Toughness
- Improved Polish-ability
- Improved Cleanliness with fewer inclusions
- Improved Performance
- Predictable Tool Life
- *And Much More.....*

We distribute the following Powdered Metals:

CPM® 1V®	CPM® 3V®	AISI M4 Powdered Metal (CPM® Rex M4® & ASP 2004® available)
CPM® 9V®	AISI A11 Powdered Metal (CPM® 10V® & ASP 2011® available)	AISI T-15 Powdered Metal (CPM® T15® & ASP 2015® available)
AISI M48 Powdered Metal (CPM® Rex 76® also available)	CPM® Rex 20® (M62)	CPM® Rex 45® (M3 type 2+Co)
CPM® Rex 54® (M4 + Co)	DuraTech® 420 Powdered Metal	CPM® S90V® Stainless Powdered Metal

**Sawing • Blanchard & Surface Grinding • Milling (2, 4, 6 sides) • Waterjet Cutting
Heat Treating • Positive Material ID • Gun Drilling • Boring • Laser Cutting**
