

LINDQUIST STEELS, INC.
TOOL STEEL SPECIALISTS

AN ISO 9001:2008 CERTIFIED COMPANY

From: Lindquist Steels, Inc.

To: Our valued customers

Subject: California Proposition 65 Compliance

Lindquist Steels, Inc. has been distributing quality Tool Steels & Specialty materials to our customers for over 75 years. We are committed to providing quality materials, service, and competitive pricing. Our commitment doesn't end there for our customers. We also work tirelessly to be compliant with all local and federal environmental and safety standards with regards to our employees, customers, and the materials we distribute.

Lindquist Steels does not produce the materials that we stock and distribute. However, we hold our mill suppliers to very high standards and work closely with them in an effort to ensure compliance in every aspect that we require.

California Proposition 65 is a law designed to protect California residents from elevated exposure to chemicals that might cause reproductive harm or be potentially cancer causing. The list of chemicals identified as possible concern and additional information on Prop 65 can be found at http://oehha.ca.gov/prop65/prop65_list/Newlist.html

There are a select few materials that we distribute contain chemicals on the Prop 65 list. This statement and warning label below is to serve as a notification that these chemicals are present to a certain degree.

WARNING!

This product can expose you to chemicals including:
Lead, Nickel, Cobalt, and Chromium

Which are known to the state of California to cause
cancer, birth defects, or other reproductive harm.

For more information please visit

www.p65warnings.ca.gov

Lindquist Steels, Inc. does not believe that the presence of these chemicals would result in significant exposure under normal and typical conditions. However, the risk increases if the materials with these chemicals are cut, ground, welded, cast, exposed to extreme heat beyond their intended use, become airborne and/or inhaled in an unsafe environment. Lindquist Steels, Inc. highly suggests that all recommended safety procedures, proper processing equipment, and protective equipment are utilized when working with products that contain chemicals on the California Prop 65 warning list.

Additionally, Lindquist Steels, Inc. maintains all safety data sheets on the materials we distribute. These are available upon request.

Please contact us at 1-800-243-9637 or sales@lindquiststeels.com with any additional questions or concerns.
