

LSI EDM Blanks

Lindquist's EDM Blanks are designed to save the discerning toolmaker time and money and increase tool room efficiency.

Our EDM Blanks are precision "fine milled" square & parallel to the tolerances listed below. The blanks are also supplied triple tempered & pre-hardened to their optimal operating hardness.

We are stocking the most popular sizes and grades for same day shipment. Additional grades and custom sizes are also available. Please speak with a representative to discuss your specific application.
